

Narrow Self-Contained Single-Deck Merchandiser

Narrow self-contained glass front island for frozen, ice cream and medium temperature applications. Dual temperature capability available.

Model ONIZGGA
Narrow Self-Contained Single-Deck Merchandiser

Please consult Hillphoenix Engineering Reference Manual for dimensions, plan views and technical specifications. Specifications subject to change without notice. Designed for optional performance in store environments where temperature and humidity do not exceed 75°F and 55% R.H. Certified to UL 471 and ANSI/NSF Standard 7.

Base Model Features

- The narrow footprint of the ONIZGGA is ideal for smaller spaces or when trying to maximize floor space.
- 10" wrap-around glass provides maximum product visibility from all four sides of the cases.
- The 13-1/8" base frame gives easy access to the condensing unit.
- Deep bin depth easily accommodates maximum pack-out of product.
- Adjustable wire display racks can be placed at multiple levels for that "just right" display.
- Energy efficient fan motors are provided as a standard offering.
- Advanced coil and baffle design provides consistent temperatures throughout the spacious bin for maintaining product integrity.
- Integrated two-part polymer bumper systems provide superior protection and durability.
- Superior exterior fit and finish for clean, eye-catching lines.
- Lift up fan plenum provides easy access for coil cleaning.
- Easily removable fan assembly.
- Drain pan included for managing waste water.
- Removable castors for easy merchandiser unloading, movement and placement.

Available Options

- Available lengths: 5' and 6'.
- Flat and Streamline fronts available.
- Custom colors, finishes and textures available to meet any merchandising plan.
- Optional dual temp switch allows quick and easy change between medium and low temp applications for increased merchandising flexibility.
- Insulated partitions for independent temperature operation.
- Electric defrost is available.
- Optional electrical outlet can be installed in the kickplate for easy power access.
