Front Options

Solid

Classic 2

12" Glass Streamlyne

12" Glass Flat

17" Glass Streamlyne

17" Glass Flat

Base Model Features

- Abundant product facings maximize display impact of this wide island end cap case.
- Advanced coil and baffle design provides consistent temperatures throughout the spacious bin for maintaining product integrity.
- Bottom-mounted copper coil and lift-up fan plenum with easily-removable fan basket and motor assembly for ease of maintenance.
- Seamless tank liner provides positive drain runoff and enhanced sanitation.
- Removable casters for easy merchandiser unloading and movement during installation.

Available Options

- Available as an end cap.
- Fronts are available in solid or glass construction.
- Solid front options include: Standard Solid, and Classic 2.
- Glass front options include: 12" and 17" with streamlyne bumper or flat front.
- Custom colors, finishes and textures.
- Insulated ends available for placement against walls or cases.
- Polymer or stainless end trim available.
- Base frames available in 5" standard or 7" custom.
- Optional dual-temp switch allows quick and easy change between medium and low-temp applications for increased merchandising flexibility.
- Unitized design utilizes single-point connection for hook-up, reducing the number of connections and installs per line-up.
- Electrical or hot gas defrost are available to meet your particular engineering design preference.
- Optional electrical outlet can be installed in the kick plate for easy power access.
- Optional electronic case controller manages case performance for consistent temperature and product integrity.
- Optional 9.5" and 14" utility box for refrigeration and electrical connections.
- Configuration: End cap case with flat end, single unitized end cap case with case joint, back-to-back end cap case.
- Combine the OWIZV with OWEZV wide island end cap to increase capacity and present shoppers with a continuous display of product.
- Also available with slider lids OWIZVL with OWEZVL.
