Case Configurations

17" Glass Streamlyne Front

12" Glass Flat Front

Solid Front

Solid Classic 2 Front

Optional Slider Lids

Base Model Features

- Abundant product facings maximize display impact of this wide island case.
- Advanced coil and baffle design provides consistent temperatures throughout the spacious bin for maintaining product integrity.
- Bottom-mounted copper coil and lift-up fan plenum with easily-removable fan basket and motor assembly for ease of maintenance.
- Seamless tank liner provides positive drain runoff and enhanced sanitation.
- Removable casters for easy merchandiser unloading and movement during installation.

Available Options

- Available lengths 4', 6', 8', 10' and 12'.
- Fronts are available in solid or glass construction.
- Solid front options include: Standard Solid and Classic 2.
- Glass front options include: 12" and 17" with streamlyne bumper or flat front.
- Custom colors, finishes and textures.
- Optional superstructure in three heights for display of non-refrigerated products.
- Adjustable lighted shelf or saddle basket options for use with superstructure to provide additional display space.
- Epoxy coated wire or plexiglas product stops available to fit with your store aesthetics.
- Adjustable wire racks provide display flexibility.
- PVC or aluminum tag molding are available to meet customer needs.
- Insulated ends available for placement against walls or cases.
- Polymer or stainless end trim available.
- Base frames available in 5" standard or 7" custom.
- Optional dual temp switch allow quick and easy change between medium and low temp applications for increased merchandising flexibility.
- Center sill piping with electrical conduit allows for store top piping convenience and ease of installation.
- Unitized design utilizes single-point connection for hook-up, reducing the number of connections and installs per line-up.
- Electrical or hot gas defrost are available to meet your particular engineering design preference.
- Optional electronic case controller manages case performance for consistent temperature and product integrity.
- Optional 9.5" and 14" utility box for refrigeration and electrical connections.
- Optional electrical outlet can be installed in the kick plate for easy power access.
- Configuration: Single wrap, double wrap or single / double flat ends, single unitized or double unitized.
- Combine the OWIZV with OWEZV wide island end cap to increase capacity and present shoppers with a continuous display of product.
- Available with slider lids OWIZVL & OWEZVL.
